RE: H3410 An Act protecting public drinking water
DT: 20 October 2015

Dear Honorable Chair and Members of the Joint Committee on Environment, Natural Resources and Agriculture,

Thank you for considering *H3410, An Act protecting public drinking water* before your committee on October 20th.

The bill would protect the public's supply of water by prohibiting the expansion or the construction of a solid waste disposal facility within 400 feet of a public water supply well or a well field and aquifers. It would also direct the Department of Environmental Protections to enforce this law with supporting rules and regulation.

Thank you for your time and consideration of this bill. I respectfully request that *H3410, An Act protecting public drinking water* be released favorably and expeditiously from your committee.

Sincerely,
